Name of School or University:	Satit Bilingual School of Rangsit University
Location:	Bangkok
Working time:	Full-time
Write or Paste Ad:	<p>An opportunity has arisen for a Robotics/Computer Science Teacher position at Satit Bilingual School of Rangsit University in Bangkok, with a start date in May 2024 and a salary of up to 60,000 Thai Baht, dependent on qualifications and experience.</p> <p>The ideal candidate should be dynamic, experienced, and professionally certified, dedicated to both curricular and extracurricular student development. Responsibilities include teaching various subjects such as Computer Science, Robotics, Coding, and potentially Media Studies/Digital Media & Design, adhering to the Cambridge Curriculum requirements, preparing teaching materials, assessing student progress, and participating in school activities. Qualifications include an Education Degree in Computer Science or a related field, professional teaching certification, and preferably a Master's degree. Two years of teaching experience in a structured school setting, familiarity with Cambridge International Education Program and/or Thai Ministry of Education, and proficiency in English are required.</p> <p>The school prioritizes candidates with strong communication, problem-solving, and time management skills, alongside adaptability and a positive attitude. Safeguarding and student welfare are paramount, and applicants must provide professional references and undergo background checks.</p> <p>Benefits include competitive salary, full-time employment with a two-year initial contract, health insurance, paid holidays, and assistance with legal and banking procedures. Applicants should submit a cover letter, resume, introductory video, and references to designated contacts at SBS. Satit Bilingual School, affiliated with the Arthit Ourairat Institute, is renowned for its quality education and invites qualified individuals to apply for this position.</p> <p>recruit@sbs.ac.th</p>
